

# PROTECTION AND DURABILITY, IN A LIGHTWEIGHT MOISTURE BARRIER.

Stedair Gold® is a revolutionary moisture barrier that combines meta-aramid with ePTFE bi-component technology film and high-performance PBI flame-resistant fibers. The result: a lighter, more comfortable moisture barrier with the increased thermal stability of PBI fibers.

# 1

## HIGH BREAK-OPEN

PBI fibers provide **superior flame resistance** and **heat protection**, while Kevlar fibers offer great durability and improved bursting strength.

# 2

## LIGHTWEIGHT INNOVATION

Lightweight comfort at **5.2 oz** combined with the best combined THL and TPP in the industry.

# 3

## ALL-ROUND PERFORMANCE

**Superior protection** against blood borne pathogens, toxic industrial chemicals (TICs), toxic industrial matter (TIMs) and other harmful chemicals. Waterproof to **minimum 1 PSI** after **exposure to -4°F**

# 4

## BEST WARRANTY

**7-year** warranty

### SUBSTRATE COMPOSITION:

**20%** PBI®  
**30%** Nomex®  
**50%** Kevlar®

THE NFPA VERTICAL FLAME TEST SHOWS **OVER THREE TIMES** THE CHAR LENGTH ON COMPETITIVE MOISTURE BARRIER COMPARED TO STEDAIR® GOLD.
